The psychology of donor insemination presents both problems and solutions. In the world of alternative means of conception, donor insemination is the parent procedure, the most available, successful and egalitarian. Breaking the bonds of silence and ending secrecy is necessary, the authors believe, to address the inherent psychological problems. As the world continues headlong down the road of high-tech procedures and methodologies, there is a need to maintain a strong sense of importance of the human element and historical, genetic connections.

Domestic violence in gay male relationships is the third largest health problem for gay men in America today. Men Who Beat the Men Who Love Them breaks the silence surrounding gay male domestic violence and exposes this hidden yet prevalent and destructive problem. The authors paint a vivid picture of gay men’s domestic violence, bringing its brutality to life by including personal narratives, written by one of the authors, by clearly defining what it is and what it is not through lists of violent acts and criminal code categories, and by thoroughly examining and analyzing the criminal, mental health, medical, political, and interpersonal issues involved. The authors boldly depart from the battered women’s literature by asserting that batterers have a diagnosable mental disorder, that battering is not gender based, and that much further criminalization of domestic violence is necessary. Striving for
victim advocacy, the book underscores the idea that gay men's domestic violence is totally unacceptable and is caused solely by individual abusive gay men who choose to batter. The book builds on and departs from what is known about domestic violence, with the authors challenging several fundamental premises in the literature, unabashedly identifying battering as a mental disorder. The authors explain that victims cannot stop their battering partners from battering and virtually all batterers choose to harm their partners in a premeditated fashion. The authors provide practical steps and suggestions for victims who want to leave and stay away from their violent partners and for friends who want to help battered gay men. Chapters describe the scope of the problem and refute myths and misconceptions. There are several detailed theory chapters in which the authors explain why gay men's domestic violence occurs, who the batterers are, who the victims are at different stages of victimization, and how domestic violence can be stopped. A visionary, wide-ranging governmental and private plan of action is introduced, including lists of necessary laws and policies, as well as outlines of strong education, training, and advertising problems needed in various sectors of society. As a self-help book, Men Who Beat the Men Who Love Them provides practical information on a never-before discussed topic. As a trainer's manual or teaching guide, it includes specific criteria for understanding the problem and for providing treatment.

How to Accept German Reparations-Susan Slyomovics 2014-06-10 In a landmark process that
transformed global reparations after the Holocaust, Germany created the largest sustained redress program in history, amounting to more than $60 billion. When human rights violations are presented primarily in material terms, acknowledging an indemnity claim becomes one way for a victim to be recognized. At the same time, indemnifications provoke a number of difficult questions about how suffering and loss can be measured: How much is an individual life worth? How much or what kind of violence merits compensation? What is "financial pain," and what does it mean to monetize "concentration camp survivor syndrome"? Susan Slyomovics explores this and other compensation programs, both those past and those that might exist in the future, through the lens of anthropological and human rights discourse. How to account for variation in German reparations and French restitution directed solely at Algerian Jewry for Vichy-era losses? Do crimes of colonialism merit reparations? How might reparations models apply to the modern-day conflict in Israel and Palestine? The author points to the examples of her grandmother and mother, Czechoslovakian Jews who survived the Auschwitz, Plaszow, and Markkleeberg camps together but disagreed about applying for the post-World War II Wiedergutmachung ("to make good again") reparation programs. Slyomovics maintains that we can use the legacies of German reparations to reconsider approaches to reparations in the future, and the result is an investigation of practical implications, complicated by the difficult legal, ethnographic, and personal questions that reparations inevitably prompt.

WOMAN’S DAY, NEWSDAY, PUBLISHERS WEEKLY, BUSTLE, AND BOOK RIOT! “[B]rilliant, timely,
funny, heartbreaking.” —Jojo Moyes, #1 New York Times bestselling author of Me Before You
Bridget Jones’s Diary meets Americanah in this disarmingly honest, boldly political, and truly
inclusive novel that will speak to anyone who has gone looking for love and found something very
different in its place. Queenie Jenkins is a twenty-five-year-old Jamaican British woman living in
London, straddling two cultures and slotting neatly into neither. She works at a national newspaper,
where she’s constantly forced to compare herself to her white middle class peers. After a messy
break up from her long-term white boyfriend, Queenie seeks comfort in all the wrong
places...including several hazardous men who do a good job of occupying brain space and a bad job of affirming self-worth. As Queenie careens from one questionable decision to another, she finds herself wondering, “What are you doing? Why are you doing it? Who do you want to be?”—all of the questions today’s woman must face in a world trying to answer them for her. With “fresh and honest” (Jojo Moyes) prose, Queenie is a remarkably relatable exploration of what it means to be a modern woman searching for meaning in today’s world.

African American Visual Aesthetics-PB-Driskell DC 1995 Covering the works of such contemporary artists as Renee Stout, Joe Overstreet, David Hammons, Beverly Buchanan, and Martha Jackson-Jarvis, the book revisits the questions, posed in the 1930s by critics Alain Locke and James Herring, about how to define and to interpret African American art.

Deconstructing Heterosexism in the Counseling Professions-James M Croteau 2004-08-03

Deconstructing Heterosexism in the Counseling Professions uses the personal narratives of lesbian, gay, bisexual, and heterosexual counseling psychologists and counselor educators to deconstruct the heterosexist discourse in the counseling professions, envision a discourse of sexual orientation equity, and make practical suggestions for addressing sexual orientation in professional life. The narrative approach encompasses a diversity of stories and experiences including an emphasis on
racial and cultural contexts. These narratives and their analyses serve as a means for the individual and collective self examination that is needed to move LGB affirmative practice, training, and scholarship from the margins to the center of what it means to be a counseling professional.

Color of Justice-Brian K. Ogawa 1990 Using case examples, statistics, and historical and contemporary perspectives, this manual presents general principles and practical approaches for the culturally sensitive provision of victim services by the criminal justice system with emphasis on blacks, Asian Americans, Hispano Americans, and American Indians. The text is intended for criminal justice personnel, policymakers, victim advocates, and rape crisis and family violence counselors. It emphasizes the need for the criminal justice system to effectively serve crime victims within the increasingly racial pluralism and ethnic diversity in American society. Through its overview of current problems and major issues, the personal accounts of crime victims, and descriptions of innovative programs, it explains the psychological impacts of victimization in different minority groups and the premises and essential components of culturally sensitive victim treatment.

International Books in Print- 1997

An American Feminist in Palestine-Sherna Berger Gluck 1994 In December 1987, with the outbreak of the intifada, American TV beamed dramatic pictures of Palestinian children and older women taking to the streets of Gaza, the West Bank, and East Jerusalem to confront Israeli soldiers. News stories also reported how a small band of Israeli women dressed in black were taking to the streets in West Jerusalem to challenge their government's policy. Moved by these images and emboldened
by the example of the Israelis, Sherna Gluck broke a silence she, like so many Jewish Americans, had kept for so long. Her trip to Occupied Palestine one year later began a journey that introduced her not only to the horrors of Israeli occupation, but to the creativity of the Palestinian resistance movement and its transformative potential, especially for women. Highly sympathetic to the Palestinians, but with vigilantly critical observation, An American Feminist in Palestine recounts the author's experiences over the course of three years as she returned repeatedly to a number of villages and refugee camps. Weaving together anecdotes, interviews, and candid observations, she captures the vitality of the early days of the intifada and the problems that later began to plague the movement after the Gulf War. Author note: Sherna Berger Gluck directs the Oral History Program and teaches in the Women's Studies Program at California State University, Long Beach. Her previously published books include Women's Words: The Feminist Practice of Oral History (with Daphne Patai).

The Use of Art in Counselling Child and Adult Survivors of Sexual Abuse-Maralynn M. Hagood 2000

Based on clinical work, this book presents a discussion on the use of art in counselling sexually abused children, their families and sex offenders. Current theoretical models such as the "trauma model" have been effective in therapy. The author's clinical experience will provide valuable insight to therapists using art therapy techniques.

EBOOK: The Handbook of Transcultural Counselling and Psychotherapy-Colin Lago 2011-10-16

"With its diversity throughout including almost 40 authors from different therapeutic modalities, continents and professional fields the book indeed is both an ‘invitation and challenge’ and a means ‘to aid transcultural therapists in conducting their work in a sensitive and informed manner’. It brings to mind a colourful and well stocked market comprising two parts. The first provides nourishing food for practitioners such as contributions to theory, use of interpreters, training, supervision, research and case studies. The second offers an outstanding exploration of the impact of different cultural backgrounds orchestrated by the editor, whose compilation from a UK perspective might be a useful example for other cultural and language areas. The involved reader will be delighted to have this inspiring handbook to hand." Gerhard Stumm, Ph.D., psychotherapy trainer, Vienna "Therapists pride themselves on cherishing the uniqueness of every client. This book offers a powerful challenge for it plainly demonstrates that a commitment to honouring uniqueness cannot be divorced from a sensitivity to the cultural, racial, spiritual and ethnic differences that
clients present in an increasingly multicultural society. Here is an impressive compendium that illuminates the many clinical, training, relational and supervisory issues involved together with the widest range of contributions from diverse cultures that I have ever encountered in one volume. Colin Lago is to be congratulated on editing an invaluable resource which is both stimulating and disturbing in its implications." Brian Thorne, Emeritus Professor of Counselling, University of East Anglia and Co-founder of The Norwich Centre This fascinating book examines recent critical thinking and contemporary research findings in the field of transcultural counselling and psychotherapy. It also explores the effects of different cultural heritages upon potential clients and therapists. The first part of the book reflects the curriculum, context and content of counselling and psychotherapy training courses, with regards to sensitivity to diversity. It covers key issues such as: Implications of identity development for therapeutic work Ethnic matching of clients and therapists Working with interpreters and bi-cultural workers Overcoming racism, discrimination and oppression within the counselling process An overview of current research within this field In the second part, the authors give personal accounts that explore the impact of cultural heritage on people who have moved from their countries of origin to ‘Western’ countries, such as the UK or the USA. The Handbook of Transcultural Counselling and Psychotherapy will be of immense value to a wide range of readers, including counselling and therapy practitioners, supervisors, trainees, agency managers and colleagues in other therapy-related services. Contributors: Aileen Alleyne, Alison Barty, Anita Chakraborty, Divine Charura, Riccardo Draghi-Lorenz, Patricia Eschoe, Farkhondeh Farsimadan, Tiane Corso Graziottin, Delroy Hall, Fiona Hall, Addila Khan, Indu Khurana, Colin Lago, Courtland C. Queer Spiritual Spaces - Kath Browne 2016-05-23

Drawn from extensive, new and rich empirical research across the UK, Canada and USA, Queer Spiritual Spaces investigates the contemporary socio-cultural practices of belief, by those who have historically been, and continue to be, excluded or derided by mainstream religions and alternative spiritualities. As the first monograph to be directly informed by 'queer' subjectivities whilst dealing with divergent spiritualities on an international scale, this book explores the recently emerging innovative spaces and integrative practices of queer spiritualities. Its breadth of coverage and keen critical engagement mean it will serve as a theoretically fertile, comprehensive entry point for any scholar wishing to explore the queer spiritual spaces of the twenty-first century.

The Routledge International Handbook of Young Children's Rights - Jane Murray 2019-11-12

Written to commemorate 30 years since the United Nations Convention on the Rights of the Child (UNCRC), The Routledge International Handbook of Young Children’s Rights reflects upon the status of children aged 0-8 years around the world, whether they are respected or neglected, and how we may move forward. With contributions from international experts and emerging authorities on children’s rights, Murray, Blue Swadener and Smith have produced this highly significant textbook on young children’s rights globally. Containing sections on policy, along with rights to protection, provision and participation for young children, this book combines discussions of children’s rights and early childhood development, and investigates the crucial yet frequently overlooked link between the two. The authors examine how policy, practice and research could be utilised to address the barriers to universal respect for children, to create a safer and more enriching world for
them to live and flourish in. The Routledge International Handbook of Young Children’s Rights is an essential resource for students and academics in early childhood education, social work and paediatrics, as well as for researchers, policymakers, leaders and practitioners involved in the provision of children’s services and paediatric healthcare, and international organisations with an interest in or ability to influence national or global policies on children’s rights.

The American Cancer Society’s Principles of Oncology-The American Cancer Society 2018-03-13

Developed by the American Cancer Society this new textbook designed for a wide range of learners and practitioners is a comprehensive reference covering the diagnosis of cancer, and a range of related issues that are key to a multidisciplinary approach to cancer and critical to cancer control and may be used in conjunction with the book, The American Cancer Society’s Oncology in Practice: Clinical Management. Edited by leading clinicians in the field and a stellar contributor list from the US and Europe, this book is written in an easy to understand style by multidisciplinary teams of medical oncologists, radiation oncologists and other specialists, reflecting day-to-day decision-making and clinical practice. Input from pathologists, surgeons, radiologists, and other specialists is included wherever relevant and comprehensive treatment guidelines are provided by expert contributors where there is no standard recognized treatment. This book is an ideal resource for anyone seeking a deeper understanding of cancer prevention, screening, and follow-up, which are central to the ACS’s worldwide mission on cancer control.

Female Sexual Predators-Karen A. Duncan 2010

This unprecedented look at female sexual predators explains why and how they prey on our children and youths and what adults—and children and youths themselves—should understand to prevent victimization. * Interviews with victims of female sexual predators and with females convicted of sexual offenses * The most recent research on female
sexual predators and their increasing incidence in the United States and other nations. Features international studies on the crimes females commit against children and youths, providing the reader with a crosscultural view of female sexual offenders.

Re-educating the Imagination-Deanne Bogdan 1992

Breaking the Stony Silence-Ian Brooks 1989 A reminder for those who need it, that lithic studies are alive and well beyond the flint-rich lowland zone of England. Nine papers resulting from the 1988 Sheffield Lithics Conference illustrate some of the range of approaches to lithic analysis currently in use in a loosely defined northeast Midlands. Only occasionally straining for theoretical trendiness, the collection covers aspects of acquisition and deposition and summarizes the results of microfossil and blood residue analyses. An interesting complement to its southern cousin out of the Reading stable (`Lithic Analysis and Later British Prehistory' BAR 162, 1987).

Norwegian Wood-Haruki Murakami 2010-08-11 Stunning and elegiac, Norwegian Wood first propelled Haruki Murakami into the forefront of the literary scene. Toru, a serious young college
student in Tokyo, is devoted to Naoko, a beautiful and introspective young woman, but their mutual passion is marked by the tragic death of their best friend years before. As Naoko retreats further into her own world, Toru finds himself drawn to a fiercely independent and sexually liberated young woman. A magnificent coming-of-age story steeped in nostalgia, Norwegian Wood blends the music, the mood, and the ethos that were the sixties with a young man’s hopeless and heroic first love.
