Concordance To The Greek Testament Accor

CONCORDANCE TO THE GREEK TESTA-Alfred Shenington 1857-1932 Geden 2016-08-24

A Concordance to the Greek New Testament-William Fiddian Moulton 2004-07-27 This book is a completely revised and reset edition of the best-selling A Concordance to the Greek Testament edited by W. F. Moulton and A. S. Geden. Originally published in 1897, it has remained in print ever since. It is beyond any doubt the most useful basic tool available for the student of the New Testament. The original edition was primarily based on the Greek text of Westcott and Hort, but gave all the variants in the edition of Tischendorf and in the Greek text underlying the Revised Version of the English Bible; quotations are given with grammatical completeness as far as possible; a significant feature is the inclusion of the Hebrew text of direct quotations from the Old Testament; asterisks and daggers indicate whether the vocabulary items in the New Testament are found in Classical Greek and in the Septuagint. This new edition retains all the features of the earlier editions, but it is primarily based on the Greek text in The Greek New Testament (4th edition), which is identical with that in Novum Testamentum Graece (27th edition), currently the two most widely used editions of the Greek New Testament; it incorporates the main marginal readings in the former of these texts; references to the variants in the older editions are preserved, so that the student has to hand every reading which by even a remote probability might be regarded as forming part of the true text of the New Testament. The Supplement incorporating the prepositions has been included in the main text of the Concordance. Where the same word occurs twice in the same verse, these occurrences are now printed on
separate lines and individually verse-numbered so that it is easier to count the number of occurrences of any given word. Special new Greek fonts have been created to enable great clarity in the printing.

A concordance to the Greek Testament-William Fiddian Moulton 1900

The Exhaustive Concordance to the Greek New Testament-John R. Kohlenberger 1995 Here is an exhaustive index to every Greek word in the New Testament, based on the standard United Bible Societies' Greek text (UBS4).

The Englishman's Greek Concordance of the New Testament-
George V. Wigram 1996 This improved and revised edition of the standard reference work "The Englishman's Greek Concordance" features a new, larger format that makes referencing even easier. Coded to Strong s, it gives the reader with no knowledge of Greek unprecedented insight into the New Testament Greek. An invaluable tool for unearthing the rich meaning of the biblical language.

A Concordance to the Greek Testament-W. Moulton 1967
A Concordance to the Greek Testament-William F. Moulton
2017-11-14 Excerpt from A Concordance to the Greek Testament: According to the d104s of Westcott and Hort, Tischendorf and the English Revisers On the other hand, it has not been felt to be always desirable to follow the peculiar spelling of wh. The work is a Concordance to the New Testament, not to this or that particular editor. Where, therefore, on the authority of one or two mss. Forms have been adopted in their edition which are not met with in ordinary Greek lexicons, either Classical or New Testament, or in other printed Greek texts, the usual spelling has been retained in order to avoid confusion. But in cases where WH and T agree, their joint authority has been accepted. In the form of the quotations themselves an attempt has been made to secure grammatical completeness, even at the cost of somewhat greater length. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at www.forgottenbooks.com This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.

Analytical Concordance of the Greek New Testament: Lexical
A Critical Lexicon and Concordance to the English and Greek New Testament - E. W. Bullinger 2014-09-19 2014 Reprint of 1914 Sixth Revised Edition. Full facsimile of the original edition. Not reproduced with Optical Recognition Software. In this classic lexicon and concordance, English words appear in alphabetical order along with the equivalent Greek words, their literal and derivative meanings, and a list of passages in which they appear. The book also includes a comprehensive Greek-English index. The design of this work is to give every English word in alphabetical order, and under each the Greek word or words so translated, with a list of the passages in which the English word occurs, showing, by a reference figure, which is the Greek word used in each particular passage. Thus, at one view, the Greek word with its literal and derivative meanings may be found for every word in the English New Testament. Ethelbert William Bullinger (1837-1913) was an Anglican clergyman, Biblical scholar, and ultradispensationalist theologian. The sixth edition was produced after Bullinger's death. Typographical and other errors have been corrected as far as possible, but no change has been made in the Lexical part of the book. Publisher's note: The 1914 printing of this work was printed with weak type and inexpensive paper. Martino Publishing has enhanced the type and legibility of the text to make the material more easily apparent to the reader.

A Concordance to the Septuagint and the Other Greek Versions of the Old Testament (including the Apocryphal Books): Supplement - Edwin Hatch 1893

Greek-English Concordance to the New Testament - J.B. Smith 1998-03-05 This book puts at the reader's finger tips the opportunity to study related meanings of the various English translations of the Greek. How does the English translation vary in relationship to the Greek word and the context of the passage? How do the translations vary in different New Testament books? How are the King James translations related to the translations of
other versions? These are a few of the questions the Concordance will help you answer. The Index lists over 9,700 English translations of the 5,524 Greek words given in the Concordance. It is the only complete English-to-Greek index of translations of Greek New Testament words. In the Concordance the student may study word meanings working from the Greek to the English; in the Index the student works in his studies from the English to the Greek.

The Englishman's Greek Concordance of the New Testament-George V. Wigram 1868

The Greek-English Concordance to the New Testament-John R. Kohlenberger 1997 The Greek-English Concordance presents in alphabetical order every word in the Greek New Testament along with, in English, the passages in which the word occurs. Unlike the older Englishman's Greek Concordance to the New Testament, it is exhaustive and contains many new features.
