Romanticism and Behavior-Morse Peckham 1947

Anthropology and the Behavioral Health Sciences-Otto von Mering 1970-07-15 This book acts as a catalyst for anthropology research to its neighboring disciplines and health sciences. It is an introspective and circumscriptive appraisal of the relevance of anthropology to these related disciplines. Each entry is a concise introduction to the topic and includes relevant cross-references to other entries within the book. Each commentary on each essay by noted social scientists. Contributors: Bernard S. Cohn; Albert Damon; Jules Henry; Donald L. Hodetzlorer; Solom T. Krauss; Wilton M. Kropeink; Richard F. Salisbury; Harvey B. Saries; Richard G. Snyder; Jessica W. Tapp, Jr.; Otto von Mering; and Murray L. Wax.

Emotion, Personality and Cultural Aspects in Crowds-Rudolph Magonio Favorino 2019-12-25 This practical text focuses on the various aspects of emotion, personality, and cultural factors in crowds and how they affect the group in which they exist. In this book, we will learn how emotions and personality traits can contribute to the formation of crowd behavior. The focus of this book is on the interaction between emotions, personality, and culture to understand how these factors influence crowd behavior. The book will also provide a comprehensive overview of the latest research on emotions, personality, and culture in crowds.

The Routledge Dictionary of Anthropologists-Gérald Gaillard 2004 This detailed and comprehensive guide provides definitions of key concepts in anthropology, from the birth of the discipline in the nineteenth century to the present day. Each of the fifteen chapters presents an overview of the major themes and developments in the discipline, along with detailed entries on key figures and concepts.

Educating Women in the West: Politics and Culture in the Victorian University-John Goodwin 2017-07-19 This book examines the role of women in Victorian universities, particularly in the context of the educational reforms of the mid-nineteenth century. It explores the ways in which women's education was constrained by the prevailing cultural and political attitudes of the time.

American concerns, and Indian people have become more active in fighting for accurate representations of their cultures. It is an introspective and circumscriptive appraisal of the relevance of anthropology to these related disciplines. Each entry is a concise introduction to the topic and includes relevant cross-references to other entries within the book. The book provides insightful commentary on each essay by noted social scientists. Contributors: Bernard S. Cohn; Albert Damon; Jules Henry; Donald L. Hodetzlorer; Solom T. Krauss; Wilton M. Kropeink; Richard F. Salisbury; Harvey B. Saries; Richard G. Snyder; Jessica W. Tapp, Jr.; Otto von Mering; and Murray L. Wax.

In 1969 Vine Deloria, Jr., in his controversial book Custer Died for Your Sake: An Indian Manifesto, argued that Indian people had been systematically oppressed by the United States government and that they had a right to resistance. Deloria's book is a key work in the development of Native American activism, and it helped to inspire a new generation of Native American scholars and activists.

Charles C. Wilkerson's book, entitled The First Man Standing: The Story of a Cherokee Chief, was published in 1974. The book is a memoir of Wilkerson's life as a Cherokee chief and his experiences in the Reconstruction Era. It is a powerful and moving account of a man who stood up against the forces of oppression and fought for justice.

The Routledge Dictionary of Anthropologists-Gérald Gaillard 2004 This detailed and comprehensive guide provides definitions of key concepts in anthropology, from the birth of the discipline in the nineteenth century to the present day. Each of the fifteen chapters presents an overview of the major themes and developments in the discipline, along with detailed entries on key figures and concepts.

In the last 25 years, anthropologists have become more sensitive to Native American concerns, and Indian people have become more active in fighting for accurate representations of their cultures. In this collection of essays, Indian and non-Native scholars have challenged Indian anthropologists to expand their vision and show how controversial
